## Understanding the Blues Scale

The blues scale is a six-note scale that can be played in any key. It consists of the following notes:

- Root
- Minor second
- Major third

- Perfect fourth
- Perfect fifth
- Minor seventh

The blues scale is often played in the minor pentatonic scale pattern, which means that the notes of the major third and perfect fifth are omitted. This gives the scale a more bluesy and expressive sound.

## **Playing Blues Scale Licks**

Licks are short, melodic phrases that can be used to add variety and interest to your guitar solos. They can be played in any key, but they are most commonly played in the blues scale. When playing blues scale licks, it is important to use a combination of hammer-ons, pull-offs, and slides. This will help you create a smooth and fluid sound.
