In the bustling town of Reading, just west of London, there is a small takeaway shop that has become a global empire. This is the story of how a family-run business with humble beginnings became one of the most successful fast food chains in the world.

The story begins in 1972, when two brothers, Fred and David DeLuca, opened their first Subway sandwich shop. The shop was an instant success, and within a few years, the brothers had opened several more locations. In 1974, they decided to franchise their business, and the Subway brand began to spread across the UK.

By the 1980s, Subway was one of the most popular fast food chains in the UK. The brothers had opened hundreds of locations, and they were beginning to expand into other countries. In 1984, they opened their first Subway restaurant in the United States, and the brand quickly became a hit there as well.

Today, Subway is the largest fast food chain in the world, with over 44,000 locations in more than 100 countries. The company has become a global empire, and the DeLuca brothers have become billionaires.

The story of Subway is a classic example of how a small business can become a global success. The brothers started with a simple idea, and they worked hard to build their business into a global brand. Their success is a testament to the power of hard work, determination, and a good sandwich.

## **The Subway Sandwich**

Subway is known for its made-to-order sandwiches. Customers can choose from a variety of breads, meats, cheeses, vegetables, and sauces. This allows them to create a sandwich that is tailored to their own taste. Subway also offers a variety of sides, such as chips, cookies, and drinks.

The Subway sandwich has become a popular choice for people who are looking for a quick and affordable meal. The sandwiches are made fresh to

order, and they are relatively inexpensive.

## **The Subway Franchise**

Subway's franchise system has been a key factor in its success. The company has been able to expand rapidly by franchising its business to independent operators. This has allowed Subway to grow without having to invest in its own restaurants.

Subway franchisees pay a franchise fee and a royalty on their sales. In return, they receive training, marketing support, and access to the Subway brand.

The Subway franchise system has been very successful for the company. It has allowed Subway to expand rapidly and to become a global brand.

## **The Subway Empire**

Subway is a global empire that has changed the way we eat. The company's made-to-order sandwiches are a popular choice for people who are looking for a quick and affordable meal. Subway's franchise system has been a key factor in its success, and it has allowed the company to expand rapidly and to become a global brand.

The story of Subway is a classic example of how a small business can become a global success. The DeLuca brothers started with a simple idea, and they worked hard to build their business into a global brand. Their success is a testament to the power of hard work, determination, and a good sandwich.
