Steve Lanham is a scooter icon. He's been riding scooters for over 40 years, and he's one of the most knowledgeable people in the world about scooter history and culture. He's also the founder of Little Of Scooters, one of the most popular scooter shops in the United States.

In this article, we'll take a behind-the-scenes look at Little Of Scooters and talk to Steve about his passion for scooters. We'll also learn about the history of scooters and the scooter culture that has grown up around them.

The History of Scooters

Scooters were first invented in the early 1900s. They were originally designed as a cheap and easy way to get around. Scooters quickly became popular in Europe, and they were soon being used all over the world.

In the United States, scooters were first popular in the 1950s. They were seen as a fun and affordable way to get around, and they were especially popular with teenagers. However, scooters lost popularity in the 1960s and 1970s, as cars became more affordable and accessible.

In the 1980s, scooters began to make a comeback. They were seen as a stylish and environmentally friendly way to get around. Today, scooters are more popular than ever before, and they are used by people of all ages.

The Scooter Culture

The scooter culture is a subculture that has grown up around scooters. Scooterists, as they are called, are passionate about their scooters and they love to ride them. They often participate in scooter rallies and events, and they have their own unique style of dress and music.

The scooter culture is a welcoming and inclusive community. Scooterists are always happy to help new riders learn about scooters and they are always willing to share their passion for riding.

Little Of Scooters
