Laying the Foundation: Piano Parts for the Blues

The piano serves as a harmonious companion to the soprano recorder in blues music. Start with simple chord progressions in the key of C major, utilizing the following chords:

- C major (C, E, G)
- F major (F, A, C)
- G major (G, B, D)

Once you feel comfortable, introduce the classic blues progression known as the "12-bar blues." This pattern consists of three four-bar phrases, each with a specific chord sequence:

1. Phrase 1: C, C, F, C
2. Phrase 2: F, C, G, C
3. Phrase 3: G, G, C, C

Unlocking the Blues on the Soprano Recorder

With the piano providing the harmonic backdrop, it's time to let the soprano recorder soar. Begin by practicing scales in the key of C major to develop your fingering technique. As you progress, incorporate blues notes into your improvisations, adding soulful embellishments to your melodies.

Blues notes, often referred to as "blue notes," are the flatted third (Eb) and seventh (Bb) of the scale. These notes add a distinctive character to the blues genre, creating a poignant and expressive sound.
