History and Culture

The history of Patagonia is as rich and diverse as its landscape. The region was first inhabited by indigenous tribes, including the Tehuelche and Mapuche people, who lived in harmony with the land.

In the 16th century, European explorers arrived in Patagonia, led by Ferdinand Magellan. The region became a contested territory between Spain and Chile, and it was not until the late 19th century that Argentina and Chile agreed to divide Patagonia between them.

Today, Patagonia is a region of cultural convergence, where indigenous traditions blend with European influences. The region is known for its

traditional gaucho culture, with cowboys and shepherders still playing a vital role in the local economy.
